▲ MOUNTAINING [EN]

For climbing and mountaineering only. Climbing and mountaineering are dangerous. Understand and accept the risks involved before participating. You are responsible for your own actions and decisions. Minors are others not able to assume this responsibility must be under the direct control of an experienced and responsible person. Before using this product, read and understand all instructions and warnings that accompany it. See the accompanying illustrations. Contact Black Diamond if you are uncertain about how to use this product. Do not modify this product in any way. Failure to read and follow these warnings can result in severe injury or death!

▲ INSTRUCTIONS FOR USE—PASSIVE PROTECTION

This pamphlet explains correct use and some common mistakes for the climbing equipment depicted in the illustrations. Other possible mistakes exist. Correct equipment use and the use of redundant systems will reduce some of the risks associated with climbing. Black Diamond's Offset Stoppers, and Hexentrics are one part of the safety system which protects the climber from a fall from height and should only be used with other CE-certified climbing and mountaineering equipment. (See accompanying illustrations)

▲ CARE AND MAINTENANCE

Climbing gear must not come into contact with corrosive materials such as battery electrolyte, chlorine bleaches, antiseptics, isopropyl alcohol or gasoline. After contact with saltwater or salt air, always rinse with fresh water, and rinse, dry and lubricate metal products.

▲ LIFESPAN, INSPECTION AND RETIREMENT

Climbing gear does not last forever. Inspect your gear before and after each use, and retire it when it fails inspection or when it reaches its maximum lifespan, even if damaged and properly stored. The maximum lifespan of metal parts is not limited by age.

See the accompanying inspection illustrations. Retire immediately if any of the illustrated conditions are found.

Damage and extreme conditions may shorten your equipment's useful life, and could conceivably require retiring the gear during its first use.

Inspect your gear immediately whenever you suspect damage during use.

Damage to the Markings section of these instructions in order to determine the date of manufacture of this equipment.

▲ STORAGE AND TRANSPORT

(See accompanying illustrations)

ADOPTING STOPPERS AND HEXES

Black Diamond Stoppers, Offset Stoppers, and Hexentrics conform to EN 12270-2013, the European Standard for Mountaineering equipment-Checks-Safety Requirements and test methods.

MARKINGS (WHEN PRESENT)

The following marks are found on Black Diamond Stoppers and Hexentrics:

Black Diamond: Name of the manufacturer.

Black Diamond's logo

e.g. 3: The size of the Stopper or Hexentric.

106 kN: The rated strength of the Stopper or Hexentric in both position one (B1) and position two (B2).

106 kN: The rated strengths of the Stopper or Hexentric in position one (B1) and position two (B2).

XXXX: Batch number corresponding to the date of manufacture, for example, the number 8184 may appear which indicates that the Stopper or Hexentric was manufactured on the 18th day of 2018.

P: Pictogram advising users to read the instructions and warnings.

CE 0082: Indicates fulfillment of the requirements of the PPE Regulation 2016/425.

UKCA: Type Body monitoring the UKCA type and performing the EU-type examination: Apave Exploitation France SAS (n°0082) - 6 Rue du Général Audran - 92412 Courbevoie Cedex - France.

UKCA: Indicates fulfillment of the requirements of EU Regulation 2016/425 as brought into UK law and amended.

Approved body performing the UKCA type examination and production monitoring: SARFA Technology Centre Limited (AB No. 0323) Wyndham Way, Telford Way, Kettering, Northamptonshire, NN16 8SD, United Kingdom.

▲ NOTICE D'UTILISATION—PROTECTION PASSIVE

Veuillez conserver la notice pour consultation ultérieure.

Cette brochure explique l'utilisation correcte et certaines utilisations incorrectes de votre matériel d'escalade représentées dans les illustrations. Il existe d'autres utilisations incorrectes. L'utilisation correcte du matériel et l'utilisation de systèmes redondants réduiront certains risques associés à l'escalade. Les Stoppers, Offset Stoppers, et Hexentrics Black Diamond font partie du système de sécurité qui protège le grimpeur d'une chute de hauteur et ne doivent être utilisés qu'avec d'autres matériels d'alpinisme et d'escalade certifiés CE.

▲ GEBRAUCHSANLEITUNG—PASSIVE SICHERUNGEN

Bewahren Sie die Anweisungen zum späteren Nachschlagen auf.

In dieser Broschüre werden die richtige Gebrauch sowie häufige Fehler beim Gebrauch von Kletterausrüstung anhand der Bilder beschrieben. Es existieren jedoch noch weitere Möglichkeiten des fehlerhaften Gebrauchs. Der richtige Umgang mit der Ausrüstung und der Einsatz redundanter Sicherungssysteme kann einige der mit dem Klettersport zusammenhängenden Risiken reduzieren. Black Diamond Stopper,
